## GREETINGS

To all our friends and fellow irisarians throughout the world. May this and every iris season bring you new joys and pleasures, new thrills in the present and above all new hope and happiness for the future.

Each year we visit many gardens, both famous and little known, in search of better iris, new colors, new forms, new strains of increased hardiness, of particular value in breeding to those of you who increase your pleasure in iris ten-fold by means of growing a few seedlings of your own. These newcomers to the ever enlarging number of iris in commerce are carefully selected for inclusion in our catalog. It is our sincere desire to bring you quality and dependability as well as beauty with every variety purchased.

A sincere "Thanks" to all who have written your appreciation of the quality plants sent to you, we are glad, too, that the free Extras pleased you. To those who want to know why we don't "toot our horn" more loudly for our own introductions — Well, frankly, we are too busy working with our iris dreams and plans for the seedlings of the future to dwell overly long on the past. Your congratulations on our success in having won several awards in the International Iris Competition were heartwarming indeed! Thanks to all you folks who make our modest business possible by your continued orders and for those warm letters and cards of appreciation. It is our very sincere desire to continue to serve you in a manner to merit your confidence in our ability to supply the finest plants at reasonable prices.

Cordially yours,
